Workshop

1) Administration, Planning and Development

   Workshop lead by Patty Freeman
   • The workshop is to continue the conversation with proposed capital projects
     o The Capital Improvement Projects are still very early in the process
     o We will not be zeroing in and handing projects off to the County Government Team until May 2019
     o How do we get feedback and how does it go to for capital projects as two agencies are involved
   • Funding coming from the County, Legacy Funds and Natural Park Bonds
   • Patty’s direction is to include input on capital projects from several groups
Park District Capital Review Committee (staff level)
- Parks Commission
- Governance team (review prior to being submitted to the County Board)
  - Looking for feedback; not necessarily a precise recommendation
  - Patty will bring the PAC feedback to the CPC (Capital Planning Committee) and come back next month with the rest of the time-line

Parks Advisory Commission Feedback on PIP
- Help target projects that are most needed
- Information to share with community
- Keep abreast and engaged on operation and infrastructure
- Ask questions to help us hone in on scope
- Opportunity to suggest ideas
- Weigh near term within vision and goals
- Feedback for team, county leadership and board

20 Year System Vision (based on 2040 plan; for discussion)

Administration and Planning
The purpose of this agenda item is to support PAC discussion and consideration of 2019 PAC tours. The Parks Advisory Commission is asked to provide feedback on which tours are a priority, interest in one or two outings outside of the PAC meeting time, and any tour ideas not on this list.

**Background:**
Tours of our, and other similar, facilities is important to help staff and leadership see current trends, inspire future facilities, and help plan for our facilities. Tours have been requested by parks commissioners previously; these options are a few ideas that may help inform future planning efforts.

In addition to staff and Parks Advisory Commission members, the County Board will be invited to participate. For at least one of these tours, our intention will be to work with the board to ensure that as many that can attend, will be able to.

**Options:**

*Spring Lake Lakeside Inspiration – Spring/May*

With future plans to develop the lakeside at Spring Lake Regional Park, the Parks Advisory Commission may want to visit amenities that could provide inspiration for development of this area of the park.

This may include:

- Lakeside settings on a smaller footprint
- Overlooks
- Open sided Picnic Shelters
- 4-season building as depicted in the park master plan
- General picnic areas with tables and grills (no reservations)
- Boat access (hand carry)
- Parking
- Playgrounds
- Fishing piers and observation decks

**Potential Tour Sites:**

- Cleary Lake Pavilion
- Cleary Lake – ‘Lakeside Shelter’
- Lakefront Park in Prior Lake
- Lebanon Hills VC (Schultz)
- Bryant Regional Park
- Bush Lake
- Lake Minnetonka?
- Normandale Lake Bandshell
- Thompson County Park, Dakota County
- Lake Minnewashta
- Lake Waconia Regional Park, Carver County

**Murphy-Hanrehan: Summer/June?**
We've had recent visits to Cedar, Cleary and Spring Lake Regional Park – but haven't visited or discussed Murphy-Hanrehan much. This is an opportunity to visit the internal portions of the park and check in with an important partner.

This may include:
- A ride into the inner portions of the park
- A visit to the trailhead building
- A discussion with MORC – Minnesota Off Road Cyclist volunteer group
- A presentation by Park District Forestry Manager and/or Wildlife Manager

**Doyle-Kennefick: Fall/September**
The stewardship of Doyle-Kennefick continues. This tour will highlight the progress made to date. We will explore the parcels under County ownership and view some of the projects that have been completed in the past few years.

This may include:
- Tour of prairie restoration areas
- Visit the homestead and barn site
- Completed maintenance work
- Discussion of what is currently owned, and what might we bring to the park at the onset of opening it to the public
- Discussion with Great River Greening and Park District Maintenance staff on restoration progress

**Other Tour Opportunities**

**Blakeley Bluffs Driving Tour:**
This tour would provide a glimpse of several locations within County owned property and potentially some views of properties that may be available for acquisition.

The tour could mostly be done with a caravan or a tour bus depending on interest. If only a few people are interested, it could be done outside of the official PAC meeting day.

**US Fish and Wildlife:**
On a few occasions commissioners have requested a tour of the US Fish and Wildlife Refuge/Minnesota Valley State Recreation Area. The destinations would be determined after a discussion about what elements of the Wildlife Refuge would be useful to review for the direction of Scott County’s regional park and trail system.

As with the Blakeley Tour, it could be done outside of the official PAC meeting day.
The Landing: November or December

The Folkways of the Holidays is an annual event held at the Landing every December. Generally the event is held during the day (last admission at 3 PM), but there are weekend opportunities and may be an evening Folkways by Candlelight. Jerry has offered to host the group after the event at his house for dinner.

This is intended to occur on a weekend and as a PAC social outing.

The Parks Advisory Commission is asked to provide feedback on which tours are a priority, interest in one or two outings outside of the PAC meeting time, and any tour ideas not on this list.
PARKS COMMISSION AGENDA ITEM: 6.b. 2019 PAC Calendar and Work Planning

MEETING DATE: April 3, 2020

PREPARED BY: Patty Freeman

REQUESTED ACTION: Discussion and feedback.

The purpose of this agenda item is to review a draft 2019 PAC calendar including anticipated meeting topics, dates, tours and a workshop and tour with the County Board. The PAC is asked to identify tour priorities, capacity for early meeting start times to accommodate meetings and tours, and to make suggestions on other tours of interest and meeting topics.

BACKGROUND:
In 2019 there are many projects and initiatives for Parks Advisory Commission feedback and leadership. Additionally the PAC identified tours as a priority to be worked into 2019 and a workshop with the County Board. To facilitate success with all of these staff has prepared a draft 2019 calendar for PAC discussion (attached Calendar).

Below is a list of some of the major items anticipated to come before the Parks Advisory Commission for consideration and for feedback and/or recommendation to the County Board:

- CSAH 27/21 and Cleary Lake Regional Park Updates
- Cleary Lake Maintenance Facility Construction Project
- Spring Lake Regional Park – Initiation of lakefront development design and public engagement
- Cleary Lake Regional Park Master Plan initiation
- Conservation Partners Legacy Grant Project – Stewarding regional park lands
- 10th Anniversary Parks and Trails Legacy Report
- Regional Trail Master Planning initiation (if approved)
- Blakeley Ravine Survey Project
- Land Acquisition Updates and Opportunities
- Capital and operating budget priorities

The purpose of this agenda item is to provide an overview of the 2020 parks program budget process and to review preliminary budget goals for consideration and feedback by the budget teams and the Scott County Board. The PAC is asked to reflect on the initial objectives and goal and provide feedback.

BACKGROUND:
The Scott County and Three Rivers partnership team has begun prepping for the 2020 operating budget process and the team has identified preliminary budget principles, objectives and goals.

2020 Budget Process
In preparing budget, there is analysis and discussion and check in points along the way with several staff teams and as policy bodies:

- Team analysis and discussion
- Scott County and Three Rivers Park District leadership discussion
- Parks Advisory Commission discussion and feedback
- County Board review, discussion, direction; and approval
- Joint Board review and approval

Budgeting Principles
The following principles were used in evaluating 2020 budget needs:
1. Work as a team to address service gaps and challenges.
2. Seek new revenue opportunities.
3. Maintain a realistic budget in line with Scott County leadership and policy makers

Preliminary Objectives 2020:
1. Continue building outreach and awareness through/of events, programs/camps, community presentations, new and continued partnerships
2. Build awareness of ~5 - 10 year 2040 comprehensive plan goals
3. Review 15-20 Year Vision
4. Focus on tours and field trips for leadership and policy makers
5. Address inefficiencies in maintenance service delivery
6. Continue standard of quality service

Preliminary Goals for 2020 Budget:

- Recreation and Education Programs Delivery
  - Continue to expand service in gap areas/where there is demand
    - Maintain current staffing and supply levels
    - Addition of a van with towing capacity
  - Program participation on the rise
  - Summer camp cancellations decreasing
  - Partnerships with schools and other community groups on the rise
  - Service demand – Fishing Camps; Firearms Safety/Conservation Camp; Private Lessons

- Maintenance
  - Address rising need for custodial/janitorial and current structure of higher paid technical staff delivering custodial work which has led to reduced capacity for maintenance projects
    - Increase custodial/janitorial position by 1.0 FTE
    - Clean public/staff buildings, shelters, pavilions, trailheads and 8 remote restrooms
    - More consistent and increasing park use requiring more frequent cleaning 2-3 times per day versus once per day.
    - Forty hours per week for basic routine cleaning. Additional hours for deep cleaning and basic maintenance.
    - Technical, higher paid staff delivering custodial/janitorial service
    - Reduced capacity to move projects forward due to capacity of technical staff, i.e. Cedar Hiking Trail

- Address $30,000 revenue gap from reduced tax-forfeited land sales
- Wage, Benefits and Health Care - Meet standard wage and benefit increases

Timeline:
March – team discussion and proposals
April
  - PAC review and feedback
  - TRPD and SC Leadership review and feedback
May – Parks update to Board
May 31 – Staff inputs new budget requests (due)
July 30 – Preliminary 2020 Budget Proposal to Board (Full County Budget)
September 3 – Budget and CIP Work Session with Board (Full County Budget)
September 17 – Set preliminary 2020 levy
The purpose of this agenda item is to share progress on our wayfinding project for regional trails in Scott County.

Background:
In November, we shared the different concepts for kiosk structures that were provided by the consultant. During that meeting, several members of the PAC recommended Option 1 (below). This opinion was shared by many of the work team and has been selected, with some modifications, as the recommended choice.

Modifications include Type A: removing middle post, centering the partnership logo, and including a flat or tilted roof option. Type B2 doesn’t currently seem useful based on our preliminary content modifications. A middle size between the Type A and Type B1 may be useful however. We suggest including that option. Level C: removing the trail name sign and placing a sign on the post itself in two directions. We’d also request removable branding ovals to allow us to further the process for fabrication while we continue the conversation about the best way to implement any branding.

It would look something like these options:
**Content:**
The marketing and community engagement group with Three Rivers Park District have worked on some draft concepts to improve the content on the Level A and Level B kiosks. The improvements are promising and will be presented at a later date when they have been further vetted by the workgroup. The improvements are intended to simplify messaging, provide more universal messaging, to focus on the amenities of the trail, and to provide more flexibility for implementation.

**What's Next:**
- Signia will develop specifications
- Content will be revised and vetted with project team
- Coordination with local government
- Siting and site design for kiosk placement

**Discussion:**
Do you agree with the work team’s recommendation for Option 1 with the included modifications?
