Project: 2011 Scott WMO WREP

Project Number:

Approval Date:

Primary Cooperator:

Start Date:

Primary Practice: Wetland Resotration

Completion Date:

Description

This proposal will fund Early Adoptor payments to promote participation in a regional watershed project, with the goal of improving water quality and expanding wildlife habitat by permanently restoring and enhancing up to 300 acres of wetlands in the Sand Creek and Prior Lake/Spring Lake Watersheds. The Early Adoptor incentive is \$600 to \$800 per cropped acre. The funds will be used to provide incentive payments, with two objectives: to moderate flows in Sand Creek and its tributaries and to reduce TSS, turbidity and TP.

Actual Results

9-26-2011

Met with 40 landowners in PLSLWD and Scott WMO to discuss WREP details. Have begun application process with four projects (six landowners completing paperwork). One landowner had his ownership waiver denied in August 2011. Another landowner received local and NRCS approval for his wetland project in Rice County, but this project is no longer proceeding and has been cancelled. Continuing to meet with other interested landowners and publicizing it via news media in area counties. 1-23-2012

Comments

NRCS will fund the project, with incentives of \$275/acre from Scott SWCD and another \$225/acre from Scott WMO.
