- Project Schedule

Background/Information

Scott County is proposing improvements to County Highway (CH) 83 (Canterbury Rd) from Trunk Highway (TH) 169 to 4th Avenue.

The project will build upon the CH 83 Corridor Readiness Study concept that was developed in 2016. The concept demonstrated the need to reduce access points along CH 83 based on Scott County guidelines and improve intersection safety. It also emphasized the need to provide a continuous route for pedestrians and bicyclists. In 2018, Scott County began the preliminary design for the reconstruction of CH 83 from a four-lane undivided highway to a four-lane divided highway with turn lanes and bicycle and pedestrian facilities.

A public open house meeting was held in November 2018 to introduce property owners to the CH 83 project and allow them to provide input on the preliminary design. A conceptual layout for CH 83 was presented at this meeting and comments were received.

Open House #2

The County has made progress on the project design and a second open house meeting has been scheduled to provide property owners with an update on the project and solicit additional input. At the open house, you will have the opportunity to review the following:

1. Updated CH 83 design layout
2. Construction phasing concepts
3. Project Schedule

This is an informal open house meeting. No presentation will be given so stop by anytime. Your input will ensure the project team develops a comprehensive understanding of the issues along the corridor from those who use this roadway every day. City and County staff will be available to discuss issues and listen to your concerns.

Project Schedule

The proposed schedule for the design and construction of the project includes:

Preliminary Design	June 2018—December 2018 ◆ Open House November 8, 2018
Final Design	January 2019—Fall 2020 ◆ Open House July 16, 2019
Right-of-Way/ Easement Acquisition	2020
Construction	2021

County Highway 83 Reconstruction Project
