

Scott County and MnDOT are building a new interchange at Highway 169/41/78 in Jackson and Louisville townships. Construction began in fall 2018 and is anticipated to be completed in late fall 2020.

## PROJECT GOALS

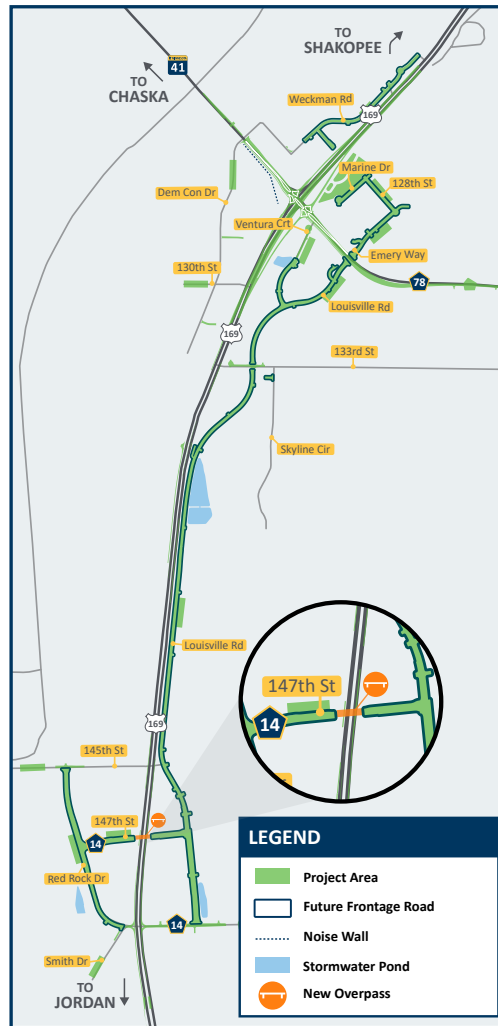

**Improve** safety and traffic flow in the area by removing direct access to Highway 169.

**Maintain** local business access to support area growth via a new frontage road system.

**Support** the long-term vision of extending the freeway to this stretch of Highway 169.

## WHAT TO EXPECT

**Local businesses and destinations will remain open during construction.**

In mid-2019, permanent access will change on both sides of Highway 169 (between County Highway 14 and County Highway 78/Highway 41). Existing driveways will not close until new entrances have been constructed.

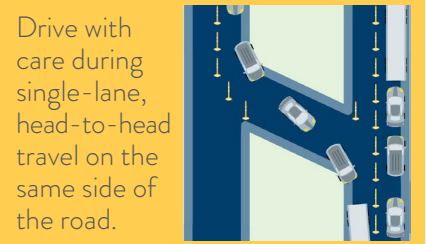

**Highway 169 is open to traffic during construction.**

Plan ahead if you're traveling through the area. Single-lane traffic is possible during non-peak and overnight hours.

**Motorists may encounter paved crossovers on Highway 169 during construction.**

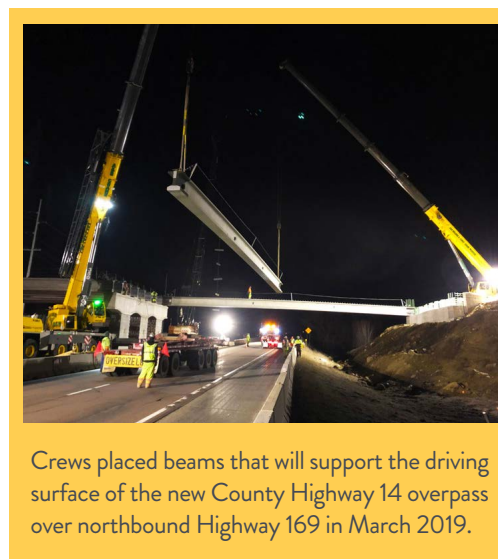

## 2019 LOOK AHEAD

### Spring 2019

- County Highway 14 bridge deck (driving surface) construction.
- Highway 169/41/78 interchange construction begins (through 2020).
- Pave new frontage road system.

### Summer 2019

- New frontage road system and County Highway 14 bridge open to traffic.
- **New routes to local businesses.**
- Complete finishing touches on new noise wall.

Crews placed beams that will support the driving surface of the new County Highway 14 overpass over northbound Highway 169 in March 2019.

**Local road restrictions, closures and detours will occur throughout construction.**

County Highway 78 and County Highway 14 are not anticipated to be closed at the same time.

**A one-month closure of Highway 41 west of Highway 169 is anticipated in 2020.**

**All dates are approximate and schedule-dependent.**

## FOLLOW THE PROJECT

Follow construction progress and be prepared for what's next.
