

Participants will learn how to reduce damages caused by salt both indoors & outdoors, how to know if your maintenance crew is using sustainable practices & dealing with liability.

When:

Tuesday, Nov. 26, 2019  
9:00 a.m.—1:00 p.m.

Where:

SCALE Regional Training  
Facility  
17706 Valley View Dr.  
Jordan, MN

## Property Management Smart Salting Workshop

Attend this FREE training offering information on smart salting practices for managing snow and ice on property you manage. The practices will help you save money, time and the environment. An optional test is offered at the end of the workshop to earn Minnesota Pollution Control Agency (MPCA) Property Management Smart Salting Certification. Certified individuals are listed on the MPCA website.

### Training Topics

#### Include:

- Infrastructure & environmental affects
- Legal considerations
- Property user identification
- Winter maintenance basics
- Discussion with other industry professionals
- Success stories

This class is a 4-hour training. The last half hour of class participants can take the optional certification test which usually takes 15–30 minutes. This certification is good for 3 years.

### Who should attend?

Property managers  
&  
Local businesses  
who hire contractors

Workshops are sponsored in part by:

PRIOR LAKE - SPRING LAKE  
WATERSHED DISTRICT

**Pre-registration is required. Email  
mbokman@co.scott.mn.us or call  
952-496-8887.**

**Check the Scott County website for future  
workshop details at:**

**<http://www.scottcountymn.gov/wmo>**

Funding for the workshops is provided by the Board of Water & Soil Resources through the Clean Water Land & Legacy Amendment & by MPCA through a grant from US EPA, Section 319 Non-point Source Management Fund.
