Art Adventure Handprint Heart

Ready to get a little messy? Use kid-safe paint or stamp pad* to help your child make a handprint (or footprint) heart (like the one we found at www.messylittlemonster.com) in the frame below and share on your fridge or with someone you love.

No paint? Make your own with koolaid or jello and water!

*How did your little one react to the paint on their hands or feet? This is also a great sensory activity!
