

Paper Airplane

How will adding a paper clip to your airplane affect its flight? Try adding a paper clip to different parts of your paper plane (such as the front, back, middle or wings) and then flying it. How does this affect the plane's flight?

FLIGHT LOG

Fly your plane 3-4 times with each variation and write down the longest flight for each. Use anything you have handy to measure - measuring tape, your own feet, bananas, notebooks...

My unit of measurement:_____

Longest flight with no paperclip:

Longest flight with paperclip in front:

Longest flight with paperclip in middle:

Longest flight with paperclip in back:

Longest flight with other_____:
