2-3-1 Criteria for Granting Variances

A variance from the provisions of the Zoning Ordinance may be issued to provide relief to the landowner in those zones where the Ordinance imposes practical difficulties to the property owner in the reasonable use of this land. No use variances may be issued.

A Variance may be granted only if the following practical difficulties exist:

1. Granting of the variance will not be in conflict with the Comprehensive Plan.
2. Exceptional, unique, or extraordinary circumstances apply to the property which do not generally apply to other properties in the same zoning district or vicinity, and result from lot size or shape, topography, or other circumstances over which the owners of property since the enactment of this Ordinance have had no control.
3. The literal interpretation of the provisions of this Ordinance would deprive the applicant of rights commonly enjoyed by other properties in the same district under the terms of this Ordinance.
4. That the special conditions or circumstances do not result from the actions of the applicant.
5. That granting the variance requested will not confer on the applicant any special privilege that is denied by this Ordinance to owners of other lands, structures or buildings in the same district.
6. The variance requested is the minimum variance which would alleviate the practical difficulty.
7. The variance would not be materially detrimental or will not essentially alter the character of the property in the same zoning district.
8. Economic considerations alone do not constitute practical difficulties.
