

THIS EMAIL IS NOT A PROJECT CLEARANCE.

This message simply reports the results of the cultural resources database search you requested. The database search produced results for only previously known archaeological sites. Please read the note below carefully.

A report containing the archaeological sites identified is attached.

The result of this database search provides a listing of recorded archaeological sites that are included in the current SHPO databases. Because the majority of archaeological sites in the state have not been recorded, important sites may exist within the search area and may be affected by development projects within that area. Additional research, including field survey, may be necessary to adequately assess the area's potential to contain historic properties.

If you require a comprehensive assessment of a project's potential to impact archaeological sites, you may need to hire a qualified archaeologist and/or historian. If you need assistance with a project review, please contact Kelly Gragg-Johnson in Review and Compliance @ 651-259-3455 or by email at kelly.graggjohnson@mnhs.org.

The Minnesota SHPO Survey Manuals and Database Metadata and Contractor Lists can be found at <http://www.mnhs.org/shpo/survey/inventories.htm>

SHPO research hours are 8:00 AM – 4:00 PM Tuesday-Friday.

The Office is closed on Mondays.

Subject: Database Review Request

Mr. Cinadr,

We are preparing an EAW for a project located about 4 miles north of Jordan, MN along Highway 169 and would like to request an archaeological/historical/cultural review of the site. The proposed use of this site is aggregate mining and processing. The site is located in the W¹/₂ of the SE¹/₄ and the E¹/₄ of the SW¹/₄ of Section 33, Township 115, Range 23, and the NW¹/₄ of the NE¹/₄ and the NE¹/₄ of the NW¹/₄ of Section 4, Township 114, Range 23, in Scott County, Minnesota. A topographic map excerpt with the site area delineated is included as a PDF attachment to this email.

Past use of this area includes mining and agriculture. No federal funding is involved in this project. Federal rules may apply to certain aspects of this project (such as NPDES), but are administered by the MPCA.

If you have any questions or need more information please contact me.

Thank you,

Joseph Galluzzi
