Short grasses and mixed trees with 26-50% impervious cover
Upland soils with planted or maintained grasses
Coniferous trees on upland soils
Dry prairie sand-gravel subtype
Mixed emergent marsh
Upland soils with planted or maintained grasses
Coniferous trees on upland soils
Floodplain forest
Altered/non-native grassland with sparse deciduous trees - temporarily flooded
26% to 50% impervious cover with perennial grasses
Saturated altered/non-native dominated graminoid vegetation
Cultivated herbaceous vegetation
Grassland with sparse deciduous trees - altered/non-native dominated vegetation
Short grasses and mixed trees with 4-10% impervious cover
Short grasses and mixed trees with 11-25% impervious cover
0
Cultivated herbaceous vegetation
Altered/non-native deciduous forest
Altered/non-native deciduous forest
Floodplain forest
Floodplain forest
Short grasses and mixed trees with 11-25% impervious cover
Cultivated herbaceous vegetation
Slow moving linear open water habitat
Floodplain forest
Altered/non-native grassland with sparse deciduous trees - temporarily flooded
Cultivated herbaceous vegetation
Upland soils with planted or maintained grasses and sparse tree cover
