DATE: February 16, 2018

RE: Sheriff's Office Internship Program

FOR IMMEDIATE RELEASE:

Scott County Sheriff Luke Hennen announced that the Sheriff's Office is currently accepting applications for summer internship opportunities.

This unpaid internship program is designed to provide college students with insight through observation and limited practical application. The office will make every attempt to place the student in a project or area based on the student's interests, qualifications and availability. Interns will observe and participate in various facets of the Sheriff's Office functions that provide public safety in Scott County including, but not limited to: Patrol, Investigations, Records, 911 Dispatch Center, County Jail, Court Security, Civil Process and Emergency Management.

"A student Internship with the Scott County Sheriff's Office can offer a unique, hands-on experience that can complement classroom knowledge and serve as a foundation to launch a successful public service career. Participants can gain real work experience by being responsible for projects in their area of interest while positively impacting the community and residents of Scott County," Sheriff Luke Hennen stated.

For additional information and to apply online, visit our website at <http://www.co.scott.mn.us/1577/Internship-Program>. Please contact Sgt. Ken Dvorak with questions regarding the internship program at 952-496-8722 or kdvorak@co.scott.mn.us.
